QR Code Link to This Post Hi! My name is Maik Timmermann, I'm a mutiple top ten songwriter and producer from Germany and I'm looking for talented male or female Hip Hop artists to record and release songs. Most of all I need Hip Hop verses for I have tons of catchy and anthemic choruses that are already recorded.

I'm looking for artists capable of recording their own vocals in high quality.

I live and work in Germany and this is supposed to be a transatlantic collaboration.

For further details please contact!
