

Description:
Our boy Jax is still missing.
6 year old pitmix
NEUTERED, MALE
Goldish/tan color with white chest and throat, Red nose
Has been missing since halloween day
From N. Union church rd. Lincoln, DE
The most recent sighting was on friday Nov. 10th holly tree rd. In Ellendale but have had none since then. Jax was wearing a black collar with ID tags and a rabies tag. He pulled his stake from the ground, while out to use the bathroom, so his chain would have been attached to him. If he got stuck he would have slipped his collar therefore he may not be wearing a collar at all. We have searched miles and miles of wooded areas, knocked on doors, handed out flyers and we have had no luck. No trace of him. I really believe somebody has my dog! Please be aware, wherever you go! Our family is devastated!!
We will not give up!
