QR Code Link to This Post Greetings,

We just need a quick photo session on your professional camera and OUR memory card. We keep our images, and we edit them, too.

You can't keep our images, and you can't use them anywhere either. You just take our photos on your camera.

Photo type:

We are a couple in our 30's, I'm a few months pregnant, so it's a couple + belly shots type photoshoot with nature/ocean in the background.

We give you a suitable memory card on which the photos are taken. You give us the card at the end, and your job is over. The whole thing will probably take under 45 minutes, if not less. As long as we get a few good shots.

We will be in Honolulu December 22-25 and hope to find a decent photographer who has about 45 minutes during those days. Our time is flexible. I'm not sure if sunset is the best time? We are not busy on the 25 either, but hubby says that X-mas day the beaches are crazy busy? But maybe you know a more secluded spot.

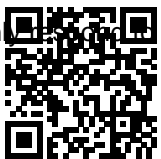

We would like to pay around \$40 easy cash for the whole thing. Or give us your offer.

Take our photos, show us the preview, if we have a few good shots, we're done.

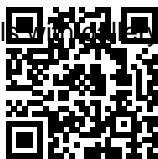

We would only deal with somebody professional, gentle and well-spoken.
