QR Code Link to This Post Looking for affordable child care?

I have openings in my home daycare. Before/after school care available. Full or part time. Very reasonable rates. Flexible hours.
I have almost 20 years experience running a home daycare.
I give discounts for families that have more than one children and for single parents.
Message for more info and/or a rate quote. We live in Avon.

*We do have two dogs (2 German Shepherds) that are very good around children. When the daycare kids are here, the dogs are either in their cages or outside. I just wanted to put that in the ad so there are no surprises when you come over for a interview and then I never hear from you again. Which has happened several times. LOL
When you come over to meet and if you decide to let me watch your kids and every time you bring them and pick them up at least one of them will bark probably the whole time you're here. That's what dogs do. Lol

Thanks,
