QR Code Link to This Post Automotive electrical systems are the most complex systems in cars, trucks and motorcycles. Electrical problems in your vehicle can be annoying and even dangerous.

We specialize in:

classic and new vehicles

faulty component diagnostics and replacement (power-windows, door-locks, stereos, power-seats, lighting, switches etc.)

Headlight restoration (cosmetic and wiring)

battery draws

full electrical system restorations

wire harness replacement

full/seamless integration of new components or systems.

Motorcycle lighting and accessories

aftermarket car-stereo, remote-start, mobile-video installation.

Carburetor to electronic fuel-ejection conversions.

Snow-plow diagnosis and installation

let us resolve your car's electrical system's problems and needs

contact us today for a quote and to schedule an appointment.

All prices below are labor-only (except remote starts and security systems) and most-cars, additional parts maybe required:
