QR Code Link to This Post She is a very quiet shy girl, huge vocabulary (no bad words), soft spoken and highly intelligent, I have had to put her in a back room since my baby grand daughter moved in this year, so I would like to rehome her where she can be more social, it would be great if it were with a male, she would love that I think.

Please have experience and knowledge of parrots before contacting me.

I am practically giving her away considering her large cage w/ perch , toys and cage items cost more than what I am asking alone, she was \$1800 when purchased as a baby, so please keep that in mind.

\*\*\*\*Asking \$700 which does include her cage and everything I have for her.

I am Located in the central Alabama area, willing to meet within a reasonable distance if absolutely serious, because putting her in a crate to transport is quite a task, but I will do it for right situation for her, the cage is pretty heavy and big so please have sufficient vehicle to fit.
