LOST CAT SINCE OCT. 5

Location **Hawaii** https://www.genclassifieds.com/x-764516-z

QR Code Link to This Post Ellie has been missing since Oct. 5. She is older, small, black with a white mark on her chest, has a tipped right ear and is micro-chipped. It is believed that she was taken when she accidentally got out and then dumped somewhere else, perhaps at the end of Waikalani Dr. or Costco. She is friendly but probably very frightened. Ellie needs medication. My sister has been searching desperately for her for almost 9 weeks and won't give up.
