QR Code Link to This Post Ready to create something beyond compare? We are seeking progressive clients who value holistic designs, sound engineering, and exceptional life cycle performance. Nomadic Investments in partnership with WhatAml design is currently building the first ever Nebraska certified passive house to suit. This new construction offers incredible lifestyle benefits, cost savings, and true environmental sustainability in the heart of the romantic and historic Our Lady of Lourdes neighborhood. Passive House certification will be rigorously tested by Intep, a Minneapolis PH company, headquartered in Munich, Germany where Passivhaus standards originated. Our design is considered the baseline product but will be built to suit your needs. We embrace autonomy in your decision to choose building materials, architectural design, and integration of smart home technologies to create an exceptional home.

Please contact Eric Bystrom, Owner of Nomadic Investments for more information on this opportunity.
