QR Code Link to This Post I have a 5 year old bearded dragon named Buddy. He is an absolutely sweetheart and very docile. He loves laying on peoples chest and getting baths as well as brushed with a soft bristled toothbrush. Sadly I am going on the road and cannot take him with me. I am asking \$135 for him and all of his things. 55 gallon tank with a cabinet stand that is easy to take down and put together, his current decor of a hideout, 2 perches, tank back ground, plastic plants and a bowl as well as 2 other bowls, ceramic rock hide, calcium, adult pellets and a brand new timer still in the package. He loves crickets, bananas (to often can cause blindness) apples, and Roman lettuce (not iceberg, no nutritional value) . Text for more
