Do you have grout, tile or stone that needs maintenance? Have mold? Want your grout a new color? Have a chipped tile? Does your grout have holes? Is it missing or cracked? It may need to be re-grouted. Let us come and look at your grout and see if we can re-grout it. Holes and missing or cracked grout allows water to get behind the tiles resulting in water damage that can cost you thousands of dollars to repair. Let us save you money!

We re-grout, clean, seal, install, repair, replace, stain and do anything else your tile, grout or stone needs. We also repair or install caulking.

You don't have to tear out all of your tile to make it look like new again. We will tell you what we can do to make your floor, walls, shower, back splash or counter tops like new again. We have the experience and tools our competition doesn't.

We are Grout Masters, a family owned and operate business that has been serving the greater Portland area for over 20 years. Let us show you what experience can do for you. Feel free to get multiplier estimates from our competitors; you will see we do more for less.

In addition to cleaning and sealing grout we can also replace tiles (yes, we do have a full tile saw to make the cuts you need), repair grout/caulking lines and repair water damage. We even work on stone, we can remove stains/rings and seal it to keep it protected from daily use.
