QR Code Link to This Post Hello! I need a babysitter to be able to watch my daughter once a week for a full shift and to be able to pick her up from daycare and watch her for a couple of hours before I get home from work. I work 4 days a week, 12 and a half hour shifts. My shifts are 645 am to 715 pm. Monday through friday she is at daycare from 6 am to 6 pm. I just need someone for 3 out of the 4 days to pick her up from daycare a little before 6 and watch her until i get off of work at 715 and get home. The days vary but my schedule is a month in advance long so I will be able to let you know ahead of time what days i will need you to pick her up/ watch her. Once a week you will need to babysit for a 12 hour shift. I work every other saturday and possible sundays but not both days the same week and every other week night. Usually wednesday nights. For nights the shifts are the same but it is 645 pm to 715 am. I will need you to be at my home between 6-610 am or pm (depending on my shift) so I can make it to work on time. Must have reliable transportation. Willing to pay 50-75 a week depending on the type of care you're willing to give and commute. I would much, much prefer to have you come to my home to babysit but if needed she may go to your home if I am comfortable. There will be a cps check and background check. Must have no criminal record or cps record. Will need 2 forms of identification and references. Experience with children preferred. If you have any questions please call, text or email. Preferrably text. Thank you so!
