" I don't follow industry standards, I raise them"

I permit and move wide loads,
I don't experiment with your vessel,
I've done it.

your going to be a million dollars, not hundreds of thousands on your boat. Your going to be a million dollars on your boat. Hello, Denny. Can I have the discount pilot who lands 98% of the time ? Said no one ever. Why risk your boat ? Experience trumps smoke and mirrors. Many ads and websites are merely brokers , Using rented or inadequate equipment,

They'll say what you want to hear,
Then scramble for the lowest bidder to do the haul,

I'm answering the phone
I'm delivering your vessel .

All Vessels protected with "Trackimo" real time tracking devices,
its your boat, you deserve to know where its at,
and what speed its traveling.

From dockside to drop off,
I'll advise in the proper procedure to lift your vessel,
prepping for over the road transport,
at no point will your transport be sub contracted to anyone else,

I do one thing,
I haul boats,
Anyone I've hauled a boat for ?
5 star review.

Professional Captains , new boat owners and manufacturers rely on my experience and expertise for stress free deliveries.

TWIC card to do port deliveries for overseas shipping.
Fully licensed and insured .
DOT and MCC federally registered.
I log 15-20 thousand miles per month,
this isn't something I do part time.

I don't deliver boats,
I deliver dreams,
I take my job ,
and the safe delivery of your vessel seriously.
