QR Code Link to This Post Rehoming a 2 1/2 year old female German Shepherd/Great Pyrenees mix. She is microchipped, spayed, and housebroken. She is a sweet affectionate girl who just needs someone to love. She does do well with some dogs if they are not overly dominant. She does not however do well with children. I am asking a \$100 rehoming fee. I will only let her go to a home that has a fenced yard and where she will be mostly indoors. If you are interested in providing this girl with an awesome home, please call or text .
