QR Code Link to This Post Allow me to introduce myself, I am the owner and engineer of Psychedelic studio. I've been involved with recording since 1977 and I've been involved with Digital Audio Workstations since back before they even actually worked.

If you are the NEXT BIG THING and your band is about to start a bidding war with all the major record companies... don't contact me.

However, if you are a song writer trying to represent your vision of your songs, perhaps I have the studio for you.

I've an 8-input interface. Some nice sounding mics. A wall full of Guitars. An 88 key midi controller. I have a full battery of Samplers and synths should you need them.

I charge \$80 for a 4-hour session. And should you need more time it cost \$20 an hour. I find 4 hours is about the limit for trusting your ears.

My job is to add value to your music. If you don't sound good I don't sound good.

Please contact me via Email
