HANDYMAN/HELPER

am looking to find a job as a construction type Handyman/Helper assisting with jobs or projects allowing me to use my current skills while acquiring new ones, adding to my knowledge and gaining irreplaceable experience e. I do not have special training in a particular trade but do have basic knowledge in a variety of areas, including but not limited to, basic construction/carpentry such as building cabinets, counters, shelves.... etc. Uninstalling and installing kitchen cabinets, bathroom sinks, toilets.....Demo work, remodel jobs and some light electrical. I have assisted with things from installation of A/C, furnace, humidifier to simple furnace servicing & pipe repair. Measured, cut and installed wood paneling on walls. I have my own tools and am capable of listening and following directions, which somehow seems to be difficult for some people. I am a hard worker, reliable and available. I am not just willing but very excited to learn. I work well individually and am able to communicate and work great with others as well. I would be happy with temporary, part time, full time, daily or different working arrangements. Give me a chance and I will prove that you will not regret it.

Thank you. Have a great day!

Jodi
