- [^] New Construction
- [^] Remodeling & Repairs

[illegible]

decks, hand railing, wrap columns etc.

I'm new to the area and looking to start work ASAP. My family moved here 2 weeks ago on a whim, hoping I could find work. We fell on hard times after the company we both worked for went out of business and closed unexpectedly. Unfortunately we have lost our vehicle due to this loss. We have no children, so I am always available. I am currently living on the bus route and am willing to ride it or walk to get to the job. I will also be willing to pitch in for gas if rides are available. Transportation will come first once hired so won't be a permanent issue. I am desperate for someone to give me a chance to get my family back on their feet. We are currently in a terrible situation with Saturday being our last day in our weekly hotel agreement. If I am unable to find work this week, my fears are we will have to leave and not sure where we will go without any income. I give my word that you won't regret giving me a chance. I'm located on Hwy 49 near the interstate in Gulfport. Please Consider!!!

Thank you for your time &!
