QR Code Link to This Post Hey, my name is Uri Kabiri, and I'm a very commercial & seasoned songwriter, music & vocal producer, arranger and sound engineer from Nashville TN. I write only hit melodies/music/songs in a variety of musical genres.

I'm looking for an excited and positive collaborator to write songs with me for artists, film & TV.

Even if you write both lyrics & music I want this collaboration to be YOUR LYRICS & MY MUSIC.

It's more fun and a lot of times easier to do things together.

You send me lyrics and I'll compose music to it if I connect to it, or you and I have a live session and write a song from scratch.

If you live in Nashville or near by it could be face to face, and if not we have Facebook, Skype etc.

Later when we establish a writing relationship we could start with music first and you write the lyrics to it.

I'M LOOKING FOR PEOPLE WHO ARE:

- 1) OK WITH TALKING ON THE PHONE (about our songs, that is. It doesn't have to be long conversations about the meaning of life), as I'm all about communication.
- 2) Available AT LEAST once a week. You wouldn't believe how much time people had me wait on them, and that kills all the excitement. No one likes to be idle.
- 3) Creative and fresh as people and as songwriters.
- 4) Positive spirited as people and as songwriters.
- 5) Drama free, as it's not about egos but rather about great songs and fun. First fun for us and then for the whole world. LET'S WRITE HIT SONGS TOGETHER.

PLEASE DON'T CONTACT ME IF YOU'RE:

- 1) Too busy with day jobs, families and other obligations which all kill your time, creativity, motivation, energy and the will to live.
- 2) Too negative as people and as songwriters.
- 3) Too frustrated & hurt regarding the music industry and about our "slim chances to make it".
- 4) Too self centered to work in a collaboration.

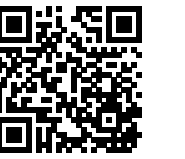

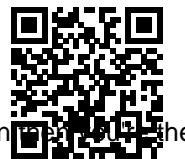

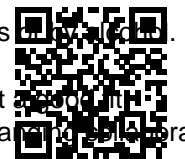

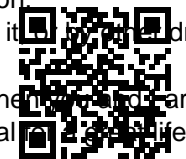

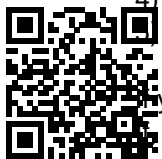

Too busy with day jobs, families and other obligations which all kill your time, creativity, motivation, energy and the will to live.

Too negative as people and as songwriters.

Too frustrated & hurt regarding the music industry and about our "slim chances to make it".

Too self centered to work in a collaboration.

Like many of you, all of these are essential in a life changing collaboration that is the only one I'm looking for.
