QR Code Link to This Post Hi I have a 9 mo tortie kitten that I need to rehome as we are moving to a complex that does not allow cats. She has been fixed and has one round of shots but will need an update on those asap. She is not declawed but still young enough that you could get her declawed if you wanted to.

She will come with her food, food bowl, litter box and litter. She gets along with our two large dogs. Small rehoming fee of \$50.
