QR Code Link to This Post I started Hotel Catifornia to give cat owners that want to pamper their cats a better option. All natural grooming, offering services that are best for your cat. If you have taken your cat to grooming salons or retail chains that offer grooming, they don't cater to your cat's needs. Noisy, full of intense smells and dogs(!), cats will find themselves in a stressful situation.

As a graduated groomer, who has worked over 10 years in the industry, I could see where we were falling short with cats. I'm a cat lover, self proclaimed cat lady even. I have 3 rescue cats of my own. I know how important bathing and brushing is for cats and want to bring that awareness to others.

We know cats can be self groomers. But it often isn't proficient enough to take care of everything. Dander, shedding, dry skin, dirt and debris, long nails. I can help.

Hotel Catifornia Cat Spa takes place in my clean and quiet home. A simple nail trim is only \$5 - a full bathing and brush-out \$40 (and it includes free nail trimming). Busy with work or home life and just need to come in for regular de-shedding treatments? \$20, no problem!
