A bit about us - since there is shared space, this is a semi-roommate situation. We're Graduate level educated professionals in our mid-late 30's with one herding dog (well-groomed and bathed - it doesn't smell like dog). We're mostly introverted and keep a clean and mostly quiet home. We would consider a small dog (45lbs or less), but ours is a bit picky - would need to meet.

Our ideal customer will be in the same general age range - a Xennial - and an educated professional. There is no "fragrance" program, and so no products containing "fragrance" either - including scented pop, cotton, dryer, fresheners, etc. - because we supply all cleaners, laundry soaps, softeners, dish soaps, and hand soaps. Natural fragrances are fine - food, essential oils, etc. (If it say's "fragrance" or "perfume" in the ingredients list, that's an artificial fragrance).
