QR Code Link to This Post Old school auto, truck tractor repair. Prefer to work on older cars trucks and old tractors iam 60 retired and need to stay busy and as well make a few dollars have been doing mech. work on all of the above for over 40 yrs have restored many old cars and trucks for 1/2 the price shops charge. had rather work on older cars, but will do some things to newer car and trucks as well but don't have computer machines. You buy the parts so there is no charge there iam probally half what the shop would charge. times are hard on everyone. If you need front end work motor work, motors changed out or rebuilt just about anything you can bring me your 1952 ford tractor as well iam not that old but not far off, can do some body and paint work. hey its just a phone call to check me out, very honest man you be as well. I do live on and dead zone in the Kiln area or hands are greasy so if you miss me leave a message. thanks Tommy
