

Looking for High Level Bass amp KeyboardsSynth Players Who Sing (East Nashville)

Location **Tennessee**
<https://www.genclassifieds.com/x-257468-z>

Hey, I'm looking for a bassist and keyboard/synth player for my band who recently relocated from the North East. We're all seasoned musicians in our late 20's/early 30's with extensive touring/studio experience, can play in many different styles (rock, jazz, americana, funk, reggae, country etc...) and play with dynamics.

Musically the band is along the lines of: Wilco, MMJ, The Shins, Band of Horses, Vampire Weekend, etc..

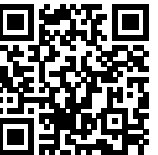

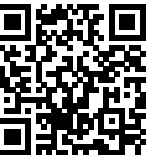

The band has reputable mgmt. representation, has played SXSW, fly dates all over the country, does well in the North East. At present, we'll be playing supports/showcasing in the Nashville area until the lineup is solidified and going back up to NE a few times a year. National touring in 6-12 months.

We have our own recording studio on the east side with a beautiful rehearsal space, you having pro gear is a must.

We're looking for someone who wants to invest in the project, is ambitious, and most importantly is a kind and responsible person.

Please submit your website, links to youtube clips, compositions if you write and avails.

Serious inquiries only
