

Adult Toy Fox Terrier (, USD)

Location **Wyoming**
<https://www.genclassifieds.com/x-257604-z>

Tickles is a 7 year old retired and spayed show dog looking for her forever home! Even though she is a "senior" lady, Toy Fox Terriers on average live to be about 15 years old.

Tickles is housebroken and walks well on lead. She is debarked (that way when I got her) and up to date on all of her shots. I can't find her rabies certificate, so she will probably need another one if you live in city limits. She has had dental work done, her heart and patellas are tested and clear.

She loves to go with you in the car as long as she can sit next to you. She doesn't like being in your lap - rather she likes to sit beside you and rest her head on your legs. She loves to go on hikes, but isn't a fast hiker! She takes her time smelling the roses and has excellent recall when you find that you've gotten a bit too far ahead of her! Tickles enjoys sitting by the fireplace and her breakfast! Breakfast is her favorite part of the day and will do a little dance until she gets it. While she usually sleeps at night her her kennel, she also loves sleeping in bed! She snuggles into a little ball and doesn't move the whole night.

Tickles has a nominal rehoming fee.
