We are two mid-twenty-something gals looking for short term housing in Jackson. We both live and work (at JHMR and/or restaurants) in town but are looking for a different / improved housing situation beginning now (end of January / beginning of February) through early April.

We are responsible, clean, friendly, non-smokers with no pets. We would be happy sharing a bedroom if all you have is a one-bedroom place. We are also open to work-trade options such as housesitting / pet-sitting since our dates are so condensed and we realize most rentals come with longer lease terms. Also, our goal is to spend no more than \$500/pp on rent, preferably less, which we know is a tall order here in Jackson... but we figured it can't hurt to throw it out there.

Please get in touch - our names are Ariel and Lynn - if you think you have something that might be of!
