At 'Doo Diligence' we do doo doo, so you don't have to! Did you know pet waste contains bacteria, viruses, and sometimes parasites that are harmful to other pets and humans? Left in your yard, runoff from the waste carries these pollutants into our creeks and streams, and eventually, our water supply. Some of these bacteria can live in the environment for years without proper management, re-infecting your pet and driving up vet bills. You can avoid contributing to the pet waste hazard simply by picking up your pet's waste, or better yet, hiring Doo Diligence pet waste professionals to do it for you!

## What We Do

During each visit, we carefully police your back yard, scooping and bagging all pet waste. For an additional \$2.00 per week, we will take the bag with us after each visit. Otherwise, the bag will be deposited in a trash can on your premises.

## Weekly Poop Scooping Rates

Most clients need only one visit per week. We come by your house on the same day each week. We recommend twice per week service for clients with exceptionally small yards and lots of waste, or those who simply prefer their yard be extra clean.

These rates apply for those clients who commit to at least once per week Poop Scooping services:
