I have over 30 years experience training horses. I can do any and all aspects of training from starting- fine tuning & softening- correcting behavioral problems. I also make sure you as the owner know how to use the "new" communication to get the desired results from your horse. I use methods that horses naturally understand, thus there is no need in physical force.

I am willing to trade my horse training services for a miniature cart/buckboard and harness. I normally recieve \$600 mo. training fee and I have numerous references that I can provide.

I can also come to your place for \$40, within polk county, ga (can service other local areas with an additional fee to cover fuel) and provide a concentrated training lesson from 1 1/2- 2hrs, for those short on cash but are having "issues" with your horse. Normally, I can show you within minutes on how to correct your horse's "issues" and teach you the skills to work with your horse, so you can save money and do the work yourself. Of course, this only works for most minor issues, such as being hard to catch, not respecting space, being able to lunge, loading, tying, etc..... I do NOT recommend someone other than a skilled horse trainer in dealing with such dangerous behaviour such as biting, charging, rearing, kicking, bucking, etc...
