I'm looking to either put together or join and established vocal group. If you play an instrument, let me know.
 I'd like to cover the 60s specifically, and maybe a few from the 70s and 80s.
 Something fun but very professional with polished harmonies.
 I sing lead and most harmonies.
 If you're involved with something you think I may be interested in, call me.
 If you'd like to be part of something that sounds professional vocally, call me.
