Finding Great Homes For Great Pets Safely 1-888-9-PETS-4-U

Needing to rehome your dog, cat or other pet? Let the pet rehoming experts from Pet Pros Services find that perfect home for your companion.

We all start out as pet owners with the best of intentions. But life is very good at presenting challenges that we are often unprepared for. There are many understandable reasons for rehoming - from pregnancy, ill health and allergies - to financial concerns and job demands. Sometimes rehoming a pet is the kindest thing a pet owner can do.

What would you pay for peace of mind? Our fee of just \$169.95 gives you instant access to a team of professional pet adoption coordinators, with adoption offers from qualified, pre-screened families, couples and individuals soon to follow.

Pet Pros Services Is Your Best Choice Because:

1. Your pet never sets paw in a shelter, rescue or animal control center. Your pet gets to stay in your loving care until an adoptive family is located.

2. A smooth transition. Emotions can run high when giving up a precious friend. You have control over the decision on where your pet is placed, making you feel reassured and optimistic for your pet's future well-being.

3. Stay in touch with your pet after the adoption. Pet Pros encourages our adoptive families and clients to stay in touch and allow visits. This is a win-win situation for both pet and owners.

• We know you stay strong. Lehomin is a very hard thing to go through. As people in our community are there, and are always here if you need a kind word or reassurance that you have done what you can.

5. Pet Pros offers special rehoming services, including hard to place pets (seniors, health problems, behavior issues), and even rehoming more than 1 pet into the same adoptive family.

Your pet's placement is guaranteed. There is no extra cost to you should things not work out. We'll work diligently and quickly to find other suitable homes should you need us.

Get Pros Services have been called pet rehoming miracle workers! Give us a call or visit our website at [www.getpros.com](http://www.getpros.com)
