Hi, 1 adult male and 2 adult females looking to rent Hopefully a "Cabin" or Cottage but any house would do with at least a year's lease and maybe a rent to own situation? We would prefer something secluded , off the grid is fine (All Have Been There Before) I am a Retired Licensed Plumber/Master Carpenter, Thia has worked as a Property Manager, doing both maintenance and housekeeping while running the front desks of several large and remote properties and her daughter works home improvement in Colorado. We have well behaved Cats and are very responsible for them. We all have EXCELLENT References! I prefer e-mail/text as I am hard of hearing, Thank You
