A Devoted GMAT Tutor (Delaware)

Location **Delaware**
https://www.genclassifieds.com/x-258127-z

I am a professional GMAT coach that offers a structured GMAT tutoring program that is thorough in content and flexible to the student's goals. I have over six years of experience tutoring for the GMAT and have tutored students of all levels. Some come to me with no GMAT experience and others come to me after working with a tutor or taking a GMAT prep course. I have had many students complete the GMAT with great GMAT scores and continue on to top 5 business schools. Here are a few highlights of what I have to offer:

-Diagnostic exam: I have my students take a test prior to our first meeting to determine their weaknesses.

-Study strategy: I review the results of their diagnostic test and formulate a study plan with them.

-Curriculum: I utilize a self made curriculum I created that covers every topic in detail that students need to know for the exam.

-Additional study material: I provide homework to my students after each lesson to reinforce what we covered during the lesson.

Please follow up with me today so we can discuss your GMAT!
