Hello, my kitty has been missing since Oct. of 1212 but I have not given up! I have posted flyers around my neighborhood, posted and ad here, and contacted all local shelters, but to no avail. I love her very much and I just want to find her and see that she is safe. I am offering a \$200 reward to the person who can lead me to her! Please if you have any information on where she might be or who she might be with, please do not hesitate to call or text or email me!

There are several pictures attached but she is white and grey calico mix with bright blue eyes. She was last seen near the U of A near the Walmart and new parking deck on campus, corner of Cleveland and Lindell. She was wearing a green and white flea collar. She is microchipped. Please if you have any information about where she is contact me at call or text is fine. If you have been keeping her I promise I will not be angry! If anything I will thank you for keeping her safe this whole time! I will even allow you to keep her! She was a foster cat that I rescued and planned to find a home for but ended up keeping so she was looking for a new home when she found yours! Please contact me so I can have the microchip information changed to your name. She needed her own home all along and if she chose you that will be good enough for me! Thank you so much for understanding! I just want to know that she is safe!

\*\*i've been contacted by someone who thinks their relative picked her up near the u of a and took her to bentonville where she was lost again, she could be anywhere in.
