I have a new in-home studio and need a model to help me work on lighting, poses, etc. No pay but you will receive copies of the work we do. You can be 100% inexperienced as long as you are willing to put in a couple of hours in exchange for some pics you can use for yourself. Please respond with your name, a good description, any experience you might have, and include a couple of face and body pics (can be selfies. I just want to see if you are the style I want for my).
