Need Basic Drawings Done for Remodel

Location **Colorado**
https://www.genclassifieds.com/x-258307-z

We are doing a permitted remodel and will need some basic drawings done for what we are doing, you may or may not need to visit the site, as we have measurements done on the house. Property is in Brighton, but again, a site visit might not be necessary. It is a basic remodel and only adding a bathroom in a closet and slightly changing the kitchen. It is about a 1,300 sq ft house with a finished attic in that sq. ft. We will also need wiring diagrams as well if you or your program is capable of doing such, otherwise we can add them by hand.

No architect or engineer stamp needed. So, if you know how to use Cad, or even just SketchUp, you can do what we are looking for.

So, if you're up for the gig, email us with the extent you can do and pay requirements, whether by the hour or the.
