Computer desk with matching armoirs (100 USD)

Location **Arkansas** https://www.genclassifieds.com/x-258496-z

This is a corner desk with matching computer housing/bookcases/armoirs. The bookcase that doesn't house the computer has scratches on the right side (see photo). All else seems to be in great shape. So, if you have a set up where that case's right side will lie flush with a wall, it will look great. \$100 obo. Just looking to give people great deals while also getting rid of stuff before I move at the end of the.
