Hi, my band is looking for a vocalist. We're currently a 4 piece (Drums, Guitar, Bass, Keyboardist) that have been playing together for over a year and a half. We have a catalog of music and are looking to hit the recording studio to record an EP soon. We have all instrumentals waiting for your take on the music, your lyrics, your song titles.

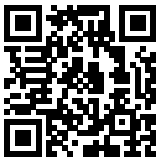

We draw influences from a variety of genres. The drummer is pure death metal, the guitar is Periphery meets Black Dahlia Murder, our bassist is impressionable, and we come equipped with a classically trained pianist laying down tasty keys.

Here's a low quality little video of one of our jams, without keys.

We're looking for someone with good death growls, tasty mids, and black metal highs. The ability to throw down some cleans wouldn't hurt. We rehearse at least once a week (Sundays) with full or one on one sessions sprinkled in in the week sometimes. We're all in our mid twenties.

If this sounds like something you'd be interested in, e-mail me for some music files or shoot me a text.
