

Roaming Wrench has Arrived (bellevue)

Location

Iowa

<https://www.genclassifieds.com/x-258930-z>

Roaming Wrench is here! We are experienced full time automotive mechanic, who are ASE certified in several auto systems. We have worked in several of the big name shops over the years and noticed one big thing, they all over charge!

We will provide for you, the exact same (or in many cases, much better) quality of service you would get from a big name shop, but for a fraction of the cost. AND you get the same quality warranty, you would get with any big name shop!

Also, we will come to the location of your choice, and even repair the vehicle on site, for MOST repairs!

And one more thing? We will not just match, but beat any competitors verifiable price for any repair!

Look, here's the thing. We want to take the automotive repair industry by storm. We want to force fair pricing among the shops, and put a stop to over priced, half assed service, who's only saving grace is a warranty you have to fight for them to uphold.

As an ASE certified technician, you can be sure the repairs you are receiving, are done right, the first time.. and with our fair pricing, you don't have to be overly wealthy to afford a safe, reliable car.

Quotes can be given over the phone, via calls or txt. As well as email.

Contact Cody. and see how we can help you.
