Our beloved chameleon wondered off while my little girl was digging for bugs. If you find a male chameleon, three horns, usually bright green, and HALF of a tail, please call!!! I know it seems ridiculous but, we found him and that's how he became a family member. He is very tame and may open his mouth to intimidate but, he doesn't bite. If found please call three 1 4 three 72 triple 7 zero

Thank you!

Thank!!
