

## Lost our chameleon (Mililani, Ahaula street)

Location Hawaii https://www.genclassifieds.com/x-259051-z

Our beloved chameleon wondered off while my little girl was digging for bugs. If you find a male chameleon, three horns, usually bright green, and HALF of a tail, please call!! I know it seems ridiculous but, we found him and that's how he became a family member. He is very tame and may open his mouth to intimidate but, he doesn't bite. If found please call three 1 4 three 72 triple 7 zero Thank you!

Thank!!
