I have anywhere from 200 - 2500 yards of stretch carpet to install.

Need to get 4 individual rooms installed per day at approximately 25 square yards per room (at least 100 yards per day) padded and installed.

Must provide tools to tuck and stretch carpet.

I am providing all materials and glue.

If you have no experience seaming, stretching, and tucking carpet, DO NOT RESPOND TO THIS AD.

There is more work available if you have the crews and skill to accommodate.

Email preferred, text.
