Friendly and healthy female White Maltese Shi Tzu. We got her last spring . She has all the shots and has been spayed. We love her , but my daughter is allergic to dogs. This is something we didn't know when we purchased this pet. We want to recover some of the expenses, so we are asking for \$250 or a reasonable offer to cover vet fees for shots and spading. Text to Call only if you are really serious about giving this girl a home.
