Sadly rehoming our 6 month old, a blue Cane Corso Mastiff. His tail is docked, ears cropped, shots & neutered. We have 3 kids that live with us full time & 1 that only comes on weekends. Our puppy has shown a lot of aggression toward our kid that comes on weekends & other kids that are outside of the family, as well as some adults. This is the reason we are rehoming him. He's a great dog to us, his owners, but not with everyone.

It is VERY IMPORTANT that he goes to a home that doesn't have kids!! Even though he's been great with our kids that live with us full time, he should not go to a home with kids!

Everything we researched showed that this breed was great with kids. That's not always the case. Whoever takes him needs to be able to socialize him & have training experience. We paid a lot for him & have papers. We also paid a lot on his ears to be cropped, cherry eye removal on both eyes & neutered. There is a rehoming fee.

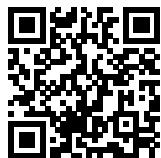

Serious inquires only please.
