Hi Friends, Its been a long time since I have been on facebook. I hope all of you have health and happiness.

IT IS A SAD DAY IN AMERICA. Let me tell you the story:

While looking through my old US military records of mine I noticed that the US Government released Social Security numbers and full names of all the members of our unit that went with us on that Iraq trip in 2008. They did this by printing in full view on our orders to Iraq. Copies of these orders were distributed to a number of persons without security clearances, civilian personnel, and possibly visual access was given to third country nationals.

I tried to contact all of my representatives in Florida but they have all ignored me. One representative in particular House Congressman Tom Rooney not only ignored my request for inquiry but had me trespassed after I visited twice in one week. Then they sent the cops to my house to try to intimidate me. This is the reason, they have violated the US Privacy Act on us and do not want the bad publicity. This congressman screams from the rooftops about how much he helps Veterans and how much he is one. Check his credentials. He was stationed at Fort Hood in the JAG for the US District Attorney prosecuting civilian crimes. He in fact is a liar! How could he trespass a fellow veteran and 3 time Iraq War Veteran. Let us expose this guy for what he really is.

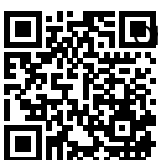

If you were on that Iraq trip with me check your orders!!!!

If all my friends will call this congressman's office and tell him how you hate the way he is treating our Veterans!

Here is his numbers:

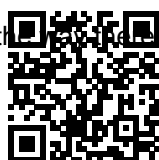

Thank you guys from a grateful Veteran,  
Joshua Vanadore

Friend request me on facebook for more updates!! Im gonna tell it all!
