Seeking a Bad Ass Drummer for an established rock cover band in South Florida. We play in many styles including classic rock, funk, soul, some reggae and anything else that people like and that we enjoy playing. Must be professional, have own equipment, transportation and most importantly, must be cool with no ego. Oh, you also have to play in time and always have a great time. We range in age from early 30s to mid 40s, but we're flexible depending on your skills and overall vibe. We specialize in private parties, special events and pro entertainment. We also play a few bars now and then, but no free gigs. If you can rehearse 2 to 3 times per month, and play roughly the same number of gigs, give me a call or shoot me an email through CL. -
