Hi there,

I'm looking for anybody who would like to use my creative talents of art so I can make some extra cash and hopefully get recognized. I have done may festivals and art shows selling my paintings and jewelry. I create macrame jewelry including necklaces, bracelets, anklets, headbands, belts, ect. (Please see pictures) My paintings are totally abstract beautiful scenery with Acrylic paint. The latest project of mine is creating beautiful art on concrete using pastels and vitamin D milk. The image is drawn on concrete with pastels, then I use vD milk with paintbrush over image. The milk binds with the pores in the concrete, and the image last for months to years! I recently did this project in Clifton OH for the street fair. I can create on sidewalks, garage floors, back patios, and front porches to give your home a warm touch of an artist. I'm located near the Cincinnati area, Please see pictures below to see what I have to offer:) I hope to be creating for you!
