We need prayers not only for our unborn daughter but also for our unborn niece. I have preeclampsia and the doctor told me without the proper care i will lose our daughter. Our niece has chaos which stands for congenital high airway obstruction syndrome and has no expected survival rate without multiple surgeries of which we as a whole family cannot afford after the death and funeral of dad. Please any prayer is worth it and if possible to donate and spread this for people to hear i would be forever grateful. <http://www.gofundme.com>
