I need attractive female models that can film/produce themselves. You need not be a professional videographer or own expensive video equipment. I'm needing 3-5 min of raw video that I will cut and edit for a film project.

No nudity please!

I'm needing the clips to be 3-5 min long and you would need to destroy a complete outfit during the clip. Even though we would like the clip to reflect your personal style. Here are a few things that make the clips visually interesting.... Breaking/cutting shoulder straps on the clothing like bra, shirt, or dress straps. Breaking necklaces and bracelets that have strings of beads. Popping buttons off blouse by ripping it open. Using some type of emotion while destroying the clothing whether it be anger, frustration, or lust, to make the viewers believe you have a reason for ripping the clothes, and not just doing it to make money.

I'm paying \$50 per clip. I pay through paypal and I receive files through dropbox or however you can send them. I need 25 different girls and I can use 2 clips from each girl, so if you're interested please tell your friends.

Thanks...
