

Free Blender (Baltimore)

Location **Maryland**
<https://www.genclassifieds.com/x-259890-z>

The coupling on the blender broke off so it does not spin, but the motor works. The new blade with the coupling attached is like \$11, but I just bought a new blender so I just want this one gone.

It's a Black&Decker Cyclone 600 watt; model BLC12600B.

I really only used it a few times before it broke (it was human).
