Low price for quick sale. This home is a 1983 Titan on Manufactured foundation. Might go VA loan. Livable and lovable the place is 1/2 block from the school house and has two garages. I could stay here and live forever. But my desire sends me to TN and the big cities down South. You can buy it or possible contract for deed with adequate down and steady income.

Contact email thru here and I will send some pictures if you want to.
