I have a Lab mix. His name is Tyson. He weights 65lbs. He is potty trained, never pooped or peed in our home unless he was left for a very long time. He is crate trained. We are having some financial problems and can't afford to keep him anymore. It's not fair for him to be in a crate when I'm at work and we have a young child and my wife can't watch him. He is a dog that has a lot of energy, so he would be good for a home that does a lot outdoors. He was born November 2011 so he's 3 years old. He does not like cats. If you have other dogs it would be best for him to be with female dogs. Unless the other male dogs don't have a problem with him. He is good around other dogs, people once he gets to know the person. I want to find him a good home. He is very special to me and it breaks my heart to give him up. All of his shots are up to date. I can give you his medical records need be. He will come with his food bowl, crate, bed, and some toys. Please e mail me if you are interested in seeing him and adopting him into your life. Thanks.
