I am a NC Contracts attorney and working local musician that handles the business side of my 2 bands. If you would like a simple, fill in the blank agreement form drafted to use for your gigs, please contact me for assistance. The agreement form will be customized for you or your music group and will cover your most common options and contingencies. Every musician or music group should have a written agreement with their clients to minimize misunderstandings and convey professionalism. My fee to fellow musicians is \$100.
